## **E-FPM PROGRAM STRUCTURE**

The E-FPM program can essentially be divided into distinct phases, the E-FPM course work phase & the E-FPM thesis phase. These phases are divided by a comprehensive examination that needs to be successfully passed for the candidate to move to the thesis phase. This entire progression can be divided into Three phases:

- A. Course Work stage Comprehensive Examination
- B. Thesis work stage

**4. E-FPM Program structure: Course work stage:** The E-FPM course work has been designed in order to successfully prepare the candidate for pursuing a Fellowship in Management. Since management is an interdisciplinary field, the scholar needs to be exposed to all functional areas of management, including the area he/she wishes to specialize in. Hence the candidate needs to complete One year of regular study for this. The grading scheme followed by IMI is presented in **Table-1**.

**4.1 Course work:** The Course work for the E-FPM scholars begins in Term I. The E-FPM course structure is mentioned in **Table-2**. In this one year the E-FPM scholar needs to complete FOUR core courses- two courses in Advanced Research Methodology; one course in Strategic Management and one course on Academic and Professional Writing. Besides this each student needs to complete TWO area compulsory courses and THREE elective courses- these may be from his/her area of specialization or any other allied area at IMI-New Delhi. As per AICTE norms the scholar also needs to complete a review paper based on the literature on the thesis related topic(ROLT). Please note each of the above mentioned courses, except for Academic and Professional writing are three credit courses. Also to be noted is that though IMI-New Delhi does not offer Information Management (IM) as an area of specialization, the IM area offers advanced FPM level courses that the FPM scholar can choose to study in case they are of his/her interest. The scholar needs to complete 10 courses in this year of his/her FPM course work. The Area Wise Core and Electives courses are available in Table -3.

Also note that in the third trimester, instead of opting for an elective course- area or otherwise- the scholar has the option of a Course of Independent Study(CIS) under the mentorship of a full-time IMI-Delhi faculty. The CIS that the scholar is intending to pursue needs to be intimated to the FPM office through the CIS intimation form (**Annexure -2**). The modalities of the CIS conduction are detailed below.

**Course of Independent Study:** The CIS work will be evaluated by the CIS guide himself/herself and another two faculty members to be nominated by the Head

Research & Chairperson Fellow Programs in consultation with the student's CIS guide (**Annexure 3-CIS evaluation form**). In case of unsatisfactory performance in the CIS work, the student would be given one more chance to submit his/her CIS work within one month for re-evaluation from the date of first evaluation. A copy of the final report (**Annexure 4-CIS report format-title page**). should be submitted to the Fellow Program Office.

**Promotion Criteria for completion of the Course work:** The E-FPM scholar needs to get

- a. No D or F in any of the courses
- b. A minimum average of B- (B minus) in the area core courses from the area of specialization in which the scholar to pursue his/her thesis work

**4.2 Comprehensive Examination:** The Comprehensive examination(CE) serves as a gateway to the dissertation and to ensure that research scholars have the required background knowledge to work towards the thesis. The Examination thus serves as a preparation for the dissertation by facilitating the development of a solid conceptual base for research in the research scholar's area of study and ensuring that the research scholar's knowledge is sufficiently broad and conceptually well-structured. Thus the objective of the CE is to

- to assess whether research scholars have general & specific knowledge about their chosen field of study.
- to assess whether research scholars have a comprehensive understanding and knowledge about research methodology used in management research.
- To assess the scholar's
- scholar's ability to analyze and communicate both orally and in writing the interpretation and inference of research.

**Structure of the CE:** The CE is essentially conducted in two phases:

**Phase I- written CE:** The written CE would be conducted on the core papers on Advanced research methods (to test knowledge about research methodologies) and a written comprehensive exam for the area compulsory/electives courses. The scholar would be asked to identify and select **Two Courses** from the area courses he/she studied. These courses should ideally be the courses that the scholar identifies as in sync. with his/her thesis area/topic. The scholar would inform the FPM office/Head research & chairperson FPM programs about their subject choices. Post which the exam schedule would be announced for the same.

The nature of the written CE can vary from Open book exam; take home examination/assignment etc. on the discretion of the faculty designing the exam. The nature of the format and the duration would be communicated to the scholar. The CE written would ideally be **One Month** after the student choices have been received.

**Grading & Evaluation:** The performance of the research scholar will be graded as P (Pass)/ F (Fail). In the case of an F grade, a research scholar may be allowed to retake the examination within **Three Months**. This is applicable to both the chosen area electives and the core course of research methodology. In the event of the scholar failing to clear the exam on the second attempt he /she would be asked to withdraw from the program.

**Phase II- Oral CE:** Post successful completion of the written examination (three weeks after the successful completion of the above); there would be a viva voce- oral comprehensive.

The oral CE would be conducted by a panel, where a member of the FPM & Research committee would be the chairperson of the oral CE committee. The panel of examiners would include subject experts from the scholar's area of specialization and from the Research Methodology and Strategy course. The viva voce will test the knowledge basis all the area specialization courses as well it would examine the knowledge on the research methodology course.

**Grading & Evaluation:** The performance of the research scholar will be graded as P (Pass)/ F (Fail). In the case of an F grade, a research scholar may be allowed to retake the oral CE within **One and a Half Months**. In the event of the scholar failing to clear the exam on the second attempt he /she would be asked to withdraw from the program.

**5. FPM Program structure: Thesis work stage:** After the successful completion of the CE and the summer internship, the E-FPM scholar begins the second and final phase of his/her fellowship. This is the phase when the actual work begins on the thesis. The candidate needs to identify

- a. His/her thesis topic/title
- b. His/her Thesis Advisory Committee(TAC)

**5.1 Thesis Advisory committee(TAC):** The identification of the TAC must be accomplished within **One Month** of the successful completion of the CE. In the event of failing to do so the fellowship for the coming month would be withdrawn and remain suspended till the TAC is formed and the communication

is submitted to the FPM office.

The research scholar needs to identify his/her supervisor under whose mentorship/guidance the thesis work is to be completed. The supervisor/committee member has to be

- A full time faculty member of IMI-New Delhi
- The supervisor has to be from the Area of Specialization/S chosen by the scholar
- Any TAC supervisor/member should not be having more than **FIVE FPM/E-FPM** scholars under their guidance- this includes both TAC supervisor (not more than three FPM/E-FPM scholars) and TAC member (not more than two additional TAC membership)
- Should have a Doctoral/Fellow Degree with at least 5 publications-minimum B+- Reputed International journals (refer IMI journal classification).
- The TAC supervisor/Member Should be holding a designation of **Assistant Professor & Above.**
- In exceptional cases the scholar can also seek joint supervision by two IMI full-time faculty, however the above criteria would hold for both the supervisors.
- In exceptional cases the scholar can look at maximum ONE external expert, (same criteria as above upholds). However, will need to provide clear justification and support for the external expert's credentials in the scholar's area of study.
- In addition to the supervisor/s, the TAC should have minimum one and maximum two members. Of these at least one of them must be from the area of specialization of the scholar.
- In the event of the E-FPM supervisor/ member leaving or taking a sabbatical from the institute for a period of one year, a new guide/member needs to be nominated and the information immediately shared with the FPM office for their records.
- Once the TAC is formed, the scholar needs to submit the signed TAC form (**Annexure-5**) to the Head Research & Chairperson FPM programs office for approval and records.
- **Please note:** All stages of the Thesis work namely: Proposal submission; proposal defense; pre-submission report and defense; Thesis submission for external evaluation; Thesis re-submission (after incorporating any suggestions/corrections suggested by the external examiners) and final defense- **have to be submitted with tangible (mail; minutes of TAC meeting) proof of the submission having been vetted by the TAC.**

**5.2 Thesis proposal: formulation & defense:** Once the TAC has been registered the E-FPM scholar now needs to develop his/her thesis proposal with the help of his/her supervisor and committee members. The research proposal is a written document and needs to include but not be limited to:

1. Cover page (**Annexure -8**)
2. Table of content
3. Introduction
4. Study Background
5. A Brief Review of Related Literature
6. Research gaps identified and conceptual framework (if any)
7. Scope of the study and study objectives
8. Proposed methodology: including: Operationalization of variables; sampling plan; hypotheses (if any) and data analysis plan
9. Significance & Expected outcomes of study
10. References: APA format

The scholar is expected to be ready with the above defined document with-in **Six Months** of his/her CE results. Once the scholar is ready with the written document and this has been approved by the supervisor and TAC members, the proposal is ready for the pre-registration seminar.

**Pre-registration seminar:** The pre-registration seminar is organized by the FPM office, in consultation with the Head Research & Chairperson FPM programs. The process to be followed for this is:

- The written document of the proposal is duly approved by the TAC/Supervisor
- The document is checked and the plagiarism report is cross-signed by the Supervisor. *Refer to Plagiarism section.*
- The Scholar' supervisor submits the final proposal draft and plagiarism report to the FPM office
- The supervisor indicates the preferred dates-if any (at least **10-15 Days'** notice is needed to organize the seminar)

The proposal is presented before the- FPM & Research committee; IMI-faculty and FPM scholars for their comments and feedback. Post the presentation, the FPM & Research committee would examine the defense and take a decision on **Accepting or Rejecting** the proposal.

In the event of acceptance, the scholar may be advised to make changes as noted during the defense. These may be discussed with the TAC and the final proposal be submitted within maximum **One month** of the defense.

In the event of Re-submission, the scholar would be given need to resubmit the revised research proposal within **Three Months**; and give a fresh seminar on the revision and in case he/she fails to defend the proposal a second time the scholar would need to withdraw from the program.

- 5.3 Application for Registration:** A candidate must apply for formal registration to the program, within one month of the successful defense of the pre-registration seminar. The application for registration needs to be done on the institute's prescribed form(**Annexure-6**). The application for registration needs to be accompanied by the following
- Thesis title and summary (250 words)
  - Final research proposal approved/signed by the supervisor/s
  - Registration is effective from the date of registration for the E-FPM Candidature.

Once the registration is complete the scholar would be engaged in the conduction of the thesis work and is expected to carry out the following:

- 5.4 Progress Report:** The TAC monitors the progress of the Research Scholar. At the end of every **Six Months**, the Supervisor of the TAC submits the scholar's progress in the prescribed format (**Annexure - 7**) to Head Research & Chairperson FPM. In case the performance of the scholar is unsatisfactory, the Head Research & Chairperson FPM and TAC decide, in consultation with the FPM & Research Committee, regarding the course of action to be taken.
- 5.5 Progress Seminar:** The research scholar should present one open progress seminar in the Research seminar series. This seminar is a mandatory but not an evaluative component. This should ideally be at least six months before the pre-synopsis presentation. This is a mechanism for helping the scholar get constructive and productive feedback on his thesis work. The scholar needs to
- Inform his TAC supervisor about his/her readiness
  - The supervisor approves and forwards the presentation request to the FPM office

## **RULES & REGULATIONS**

**10. Attendance:** IMI places high emphasis on regularity and punctuality. Hence, attendance is compulsory in all courses. This requirement formalizes the reciprocal responsibilities between students and faculty to be fully prepared for class and to contribute to joint learning. More broadly, it reinforces our belief in education as a shared exercise. The success of our learning model depends on broad, regular class participation by all students. This, in turn, depends crucially upon regular attendance by all students in all classes.

If scheduled classes are cancelled due to unscheduled holidays, such as Bandh, government declared public holidays, etc., such classes will be rescheduled on remaining working days of the term or on weekends.

### **10.1 Excused Absences**

1. Leave of absence due to the following specified reasons may potentially be considered for excused absence:
  - Serious Personal illness: A registered doctor's certificate supported by medical prescription and medical test results or hospitalization certificate is necessary to prove the same. Attendance waivers will not be granted for minor or chronic personal illnesses. The medical certificate should carry the complete address and contact details of the issuing authority including the registration number.
  - Death or serious illness in the close and immediate family
  - Student's own wedding day, or that of a close and immediate family member
  - The observance of high religious days
2. Leave of absence for the above reasons does not automatically constitute an excused absence. The decision to excuse absence is taken after the timely submission of an application by the student as explained below.

### **10.2 Notification of Absences**

1. Students must submit a written application to the Head Research & Chairperson FPM programs office, of any absence in advance in the case of emergency, as soon as possible afterward. Notifying the Head Research & Chairperson FPM programs does not automatically constitute an excused absence. Even if the absence is excused, students are responsible for satisfying any "make-up" requirements for a missed class.

2. For leave of absence that can potentially be considered to fall under the category of excused absences, an application for the leave of absence supported by all relevant documents (medical certificate, medical test results, hospitalization certificate, etc.) must be submitted to the office of the Head Research & Chairperson FPM programs on the day the student returns to classes. Late applications will not be considered for excused leave of absence. The final decision to excuse the leave of absence for applications submitted on time will be taken on a case by case basis. In case of planned leave of absence prior approval for the same must be taken from the Head Research & Chairperson FPM programs office.
3. The penalty for shortage of attendance in various programs is listed as under:
  - a. Those who have attendance below 50% in a course will get an automatic F as the overall grade for that course.
  - b. Those who have attendance of 60% and above but less than 70% would be penalized two sub-grades in the overall grade for that course.
  - c. Those who have attendance of 70% and above but less than 80% would be penalized one sub-grade in the overall grade for that course.
  - d. Registration on the specified date for each term is mandatory.
  - e. Attendance waivers may be granted for taking part in research conferences, workshops and seminars, basis prior approval taken from the Head Research & Chairperson FPM programs. However, maximum attendance waiver of not more than 10 days of missed classes during the entire academic year.

## **11.Examination Rules**

11. You are reminded that examination conditions still apply when you are instructed by the Invigilator to vacate the examination hall in the event of an emergency. You must not communicate with any other candidate on any topic. In the event of fire or any other emergency which necessitates the evacuation of an examination hall, you will be instructed to leave all materials on your desk and leave as quickly as possible in an orderly manner.
12. Exchange of any remarks, notes or gestures, glances at any other student's answer

sheet may be treated as an attempt to cheat and will be dealt with as unfair means.

Please note that non-compliance of above instructions by the student will attract necessary penalty. Without prejudice to the forgoing provisions, the institute reserves the right to take any disciplinary action against the student found indulging in any kind of malpractice during the examination, which may extend upto expulsion from the institute.

## **12. Plagiarism, Syndication & Cheating**

**12.1. Syndication & Cheating:** All assessments are intended to determine the skills, abilities, understanding and knowledge of each of the individual students undertaking the assessment. Cheating is defined as obtaining an unfair academic advantage and any student found using any form of cheating, attempting to cheat or assisting someone else to cheat may be subject to disciplinary action in accordance with the IMI, New Delhi's Disciplinary Procedure.

- The Institute regulations define a number of different forms of cheating, although any form of cheating is strictly forbidden. These are:
- submitting other people's work as your own - either with or without their knowledge.
- using notes or unauthorized materials in examinations or copying from others in exam.
- impersonation - taking an assessment on behalf of or pretending to be another student, or allowing another person to take an assessment on your behalf or pretend to be you;
- collusion - except where written instructions specify that work for assessment may be produced jointly and submitted as the work of more than one student, you must not copy or share another student's work or lend your work to another student
- duplication - submitting work for assessment that is the same as, or broadly similar to, work submitted earlier for academic credit, without acknowledgement of the previous submission;

- falsification - the invention of data, its alteration, its copying from any other source, or otherwise obtaining it by unfair means, or inventing quotations and/or references.

**12.2. Plagiarism:** taking or using another person's thoughts, writings or inventions as your own. To avoid plagiarism, you must make sure those quotations from whatever source must be clearly identified and attributed at the point where they occur in the text of your work by using one of the standard conventions for referencing.

**12.2.1. Guidelines for plagiarism report submission:** The following guidelines must be adhered to for submitting the Plagiarism reports generated by Turnitin or authenticated softwares at various stages of FPM.

1. The Research Proposal/ Pre-synopsis report/ Thesis must undergo a plagiarism check by either Turnitin or authenticated software.
2. The exclusion at the time of performing the check should be limited to the following:
  - a. Quotes
  - b. Bibliography
  - c. Phrases
  - d. Small matches upto 20 words
  - e. Small similarity less than 1%
  - f. Mathematical Formula
  - g. Name of Institutions, Departments etc.
3. Regarding self-plagiarism or cases where published work of the student is shown as Plagiarism in the check, a certificate has to be issued by the supervisor specifying and attaching the articles that have been published by the student from thesis work.
4. Similarity Index which is the percentage of text in one's assignment that has been matched with other sources **should not exceed 20 %.**

- i. If the figure is high, it does not necessarily mean that one has plagiarized as the report could be text matching against the following:
  - Quotations that have been correctly referenced.
  - Your bibliography, where the citations you have used could be exactly the same as those of another student.
  - A common phrase or series of words used in context to the topic.
- ii. Similarly, a low or zero percent similarity index does not necessarily mean that plagiarism has not taken place.
